Downloads

Treatment Order for products with Specification Code
 (products with dose map)

If you wish to make a treatment order and your product has been previously validated, i.e., the dose map has been made and the product has the corresponding Specification Code, please, use the following form:

[Treatment Order (Product with Specification Code)](#)

Treatment Order for generic products
 (corks, feeding,...)

If you wish to make a treatment order and your product has NOT been previously validated, i.e., you do not have a Specification Code for it, please, use the following form:

[Treatment Order (Product without Specification Code)](#)

Treatment Order (just for testing products)

If you wish to place a treatment order with us, just for testing products, you can do so by filling out the attached form:

[Treatment Order (just for testing products)](#)
